

Sponsor Benefits for the 2020 Public Policy Conference

We are excited to announce that the Technology Alliance is now seeking sponsors for our inaugural Public Policy Conference! This year our conference will be held on Tuesday, November 10th at the SeaTac Marriot. This inaugural conference will bring together cross-sector leaders from across Washington state in a day-long retreat to make connections, build bridges, and expand your knowledge - all focused on strengthening the state's innovation economy. This year, the Public Policy Conference is focused on better understanding the landscape of gene editing and the future of medicine and providing a robust conversation about how Washington State can continue to be a leader in this technology.
